Forecast For Northwest England
Issued by Met Office Exeter
at 0400 on Monday 23 Aug 2021

++ Valid for broadcast between 0600 and 1800

Headline:
A settled week ahead. Warmest on Wednesday.

Today:
A cloudy start for many with some mist and fog patches. This will soon clear, leaving a dry day with sunny spells for the region. Through the afternoon, variable cloud will develop. Overall, feeling warmer. Maximum temperature 23 deg C (73 deg F).

Tonight:
A fine and dry night with continued variable cloud and a few fog patches. Feeling a little cooler than recent nights. Minimum temperature 12 deg C (54 deg F).

Tuesday:
Early mist and fog patches quickly clear, leaving another fine and dry day with prolonged spells of sunshine throughout. Maximum temperature 23 deg C (73 deg F).

Outlook for Wednesday to Friday:
Conditions remain settled throughout this period. Feeling warmest on Wednesday with temperatures peaking in the sunshine, however lowering on Thursday as cloud develops. Friday brings sunny spells.
